

Modular Block Details

There's a size and shape of Reading Rock Lightweight and Concrete block for every building need

Block Dimensions

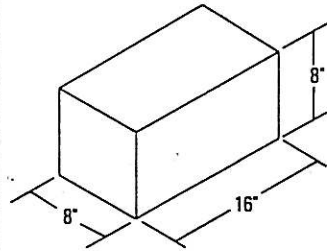

When describing block, the dimensions should be given in the following order: unit thickness (wall thickness) x unit height (cores vertical) x unit length. Therefore, the 401 unit is 4 x 8 x 16, the 802 unit is 8 x 8 x 16 and the 1204 unit is 12 x 8 x 16.

Notes

The following illustrations represent units which we have available molds to manufacture. Please contact a sales associate for clarification on stock and non-stock items.

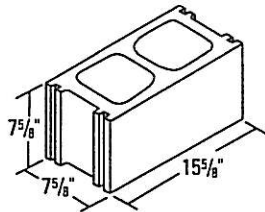

If you need any units not illustrated in this manual, please call us to determine their availability.

Nominal size unit

802

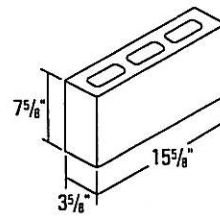

8 x 8 x 16
