ORDER ACCEPTANCE

1. All orders submitted by customer are subject to acceptance by Reading Rock and are not binding on Reading Rock unless and until so accepted. Acceptance of an order (the "Acknowledgment") constitutes a complete and binding agreement upon Reading Rock's Terms and Conditions of Sale. If these Terms and Conditions of Sale differ in any way from the terms and conditions of customer's order, the order will not be accepted unless customer assents of the Terms and Conditions of Sale set forth in an Acknowledgment, which will constitute the entire agreement between the parties. Assent will be deemed given unless customer objects in writing within five (5) days from the date of the Acknowledgment. No additions to or modifications of these terms and conditions will be effective unless made in writing and signed by both parties. Typographical or stenographic errors will be subject to correction.
2. Prices in effect at time of delivery will apply, and are subject to change without notice. We reserve the right to meet lower competitive prices and terms of sale. Trade discounts apply to jobs furnished in their entirety. Reading Rock cannot be responsible for material or pallets lost or stolen at the job site.

All account pending master orders will be cancelled if the account has not been established within the stated guidelines.
6. Pallets: Products produced on pallets must be delivered on pallets. All pallets requiring a deposit will be stenciled with a Reading Rock logo. Credit will only be given for stenciled/**reusable** pallets. We will not accept unstenciled/**unusable** pallets. There is no charge for RockCast, Garden Accent, Europa, Nitterhouse, Recon, Cement, or mortar pallets unless stacked on Reading Rock chargeable pallets. No credit is due if they are returned. The number of pallets picked up on site or returned to Reading Rock will be noted on the driver's ticket or the customer's loading list. However, the Reading Rock yard supervisor will determine the final number of pallets credited to the customer after inspection.
7. Hardscape Terms:

SPECIAL/NONSTOCK ORDERS

Non-Account Customers:

1. Special order form must be filled out completely with delivery date and all quantities, color, pricing, approved shop drawings if applicable, delivery and freight charges. Production cannot be scheduled and delivery date cannot be set until all required information has been provided.
2. Before an order for special/non-stock items will be processed, the entire payment as well as any corresponding set up or freight charges on the order must be received. An Acknowledgment must be entered into the system. C.O.D.deliveries are not acceptable.
3. An order for special/no-stock items may not be canceled once it is received by either the purchasing or manufacturing departments.
4. Upon arrival or manufacturing of the item, the customer will be notified. If the material is not picked up or delivered within 14 days of notification, the material is put into available inventory for resale or disposed of. Payment of a storage or disposal fee may be negotiated to hold the material longer if space is available. PAYMENT IS NOT REFUNDABLE!
5. Nonstock/special order items manufactured by Reading Rock will be available for pick up or delivery four weeks from receipt of full payment unless otherwise stated at the time of quotation. The customer is responsible for payment of any nonstock/special order materials that are manufactured and not utilized on the job as well as any mold charges or color setup charges.
6. Nonstock/Special Order material must be picked-up, or delivered, within 30 days from the due date set forth in the order Acknowledgement. After such 30 day period, a storage fee of \$15.00 per pallet, per month, shall be assessed. All storage fees must be paid in full prior to the materials being picked-up or delivered. If materials are not picked-up or delivered within 75 days from the due date, Reading Rock may in its discretion dispose of the materials and hold customer responsible for the costs of such disposal in addition to all outstanding invoices, including storage fees.

Account Customers (in good standing):

1. Special order form must be signed and filled out completely, with delivery date and all quantities, color, pricing, approved shop drawings, if applicable, and freight charges. Production cannot be scheduled and delivery date cannot be set until all required information has been provided.

3. The order may not be canceled once it is received by either the purchasing or manufacturing departments.
4. Upon arrival of the ordered or manufactured item, the customer will be notified. If the customer fails to pick up or have the material delivered within 14 days of notification, the customer may be invoiced for those items at Reading Rock's sole discretion. If the material is not picked up or delivered within 14 days from invoice, the material may be disposed of or put into available inventory for resale. A charge for storing or disposal of materials at Reading Rock may be assessed on all items not picked up or delivered in this timeframe.
5. After the job is complete, any unused quantity of material will be invoiced. The customer will be notified that they have 14 days to pick up/deliver the material at which time it will be disposed of or put into available inventory for resale. Reading Rock cannot be responsible for materials that have **not** been picked up or delivered within the specified 14 day time frame. Reading Rock cannot be used as a storage facility.
6. Nonstock/Special Order hardscape and block products manufactured by Reading Rock will be available for pick up or delivery six weeks from receipt of a signed special order form unless otherwise noted by Reading Rock at the time of quotation or at the time the order is placed. The customer is responsible for payment of any nonstock/special order materials that are manufactured and not utilized on the job as well as any mold and color change charges.
7. Nonstock/Special Order material will be invoiced 30 days after the due date set forth in the order Acknowledgement and available for pick up based on the agreed upon delivery schedule. If there is no agreed upon delivery schedule, materials must be picked-up, or delivered, within 30 days from the date of the invoice. After such 30 day period, a storage fee of \$15.00 per pallet, per month, shall be assessed. After 60 days from the date of the invoice, all outstanding invoices for materials must be paid in full, including storage fees, prior to the materials being picked-up or delivered. If materials are not picked-up or delivered within 75 days from the date of the invoice, Reading Rock may in its discretion dispose of the materials and hold customer responsible for the costs of such disposal in addition to all outstanding invoices, including storage fees and monthly late charges.

Without prior written authorization, Reading Rock does not allow for retainage on payment of invoices. All invoices are to be PAID IN FULL. Any disputes over pricing or problems with invoices will be handled on an individual basis and credit issued in the form of a credit invoice. Failure to keep your account current could jeopardize future deliveries.

PURCHASE MONEY SECURITY INTEREST

To secure payment and performance of all obligations, any customer that receives an extension of credit from Reading Rock, whether or not pursuant to a duly completed credit application, hereby grants Reading Rock a continuing purchase money security interest in all goods purchased by such customer from Reading Rock, wherever sold, directly or indirectly, to or for the benefit of the customer by Reading Rock, wherever located, now owned and hereafter acquired, until invoices for those goods have been fully paid. If requested, the customer shall execute financing statements or other documents required to perfect such security interest. The customer will not subject the collateral to any adverse encumbrance or lien, or sale or other transfer other than as approved in writing by Reading Rock. The goods will remain personal property regardless of how they are affixed to customer's real property and Reading Rock reserves a purchase money security interest in the goods until the purchase price has been fully paid. The customer agrees to execute, and hereby appoints Reading Rock as its attorney-in-fact to execute and file on customer's behalf, any documents requested by Reading Rock

which is necessary for attachment and perfection of its security interest. If the customer defaults, Reading Rock will have all the rights of a secured creditor under the Uniform Commercial Code as enacted in Ohio.

DISTRIBUTION

1. Reading Rock cannot be responsible for material and/or quantity discrepancies if customer has verified and signed loading list or customer has no one on site or readily available to sign loading list. **Customer has 48 hours to seasonably notify Reading Rock of any problems with a delivery by speaking personally to a customer service associate.** Messages left on voice mail will not be honored.
2. Prices are based on full truckload quantities, 9 pallet spaces or more per release. Multiple releases by one customer on one truck, regardless if the truck is full (9 pallet spaces or more) or not, shall be invoiced as separate LTL deliveries. Unloading is at the expense of customer unless otherwise agreed in writing at the time of the order. Vans are not available and such requests cannot be accommodated.
3. At the time the order is released by the customer, it is assumed that both the job site is ready for materials and there is proper access for our trucks and/or vehicles.
4. On non-account deliveries, Reading Rock trucks will not leave the road unless the "delivery beyond curb" charge has been paid. The material will be set by the curb with a moffett or "boomed" as far into the job site as possible. If the customer pays the "beyond the curb" delivery charge, the following will apply:
 - a) Customer must sign the release at the bottom of the loading list with the understanding that if any damage to the property may occur; it is not Reading Rock's responsibility.
 - b) If the driver determines in the driver's sole opinion that leaving the road is unsafe, would cause excessive damage to the property, cause damage to neighboring property, put Reading Rock's equipment in danger, or cause Reading Rock equipment to get stuck, the driver will deliver material to the curb and the "beyond the curb" delivery charge will be refunded.
5. Due to previous job site conditions, Reading Rock cannot be responsible for mud that may be deposited on driveways, walkways, or roads.
6. Due to the obvious weight of equipment and product, Reading Rock cannot be responsible for ruts or damage to property.
7. Drivers are responsible for their trucks and time spent on the job. They will not leave the road if conditions suggest a high likelihood of getting stuck or doing damage to property or their vehicles. In no case will the driver leave the road if in the driver's opinion the delivery would be unsafe.
8. It is the customer's responsibility to inform Reading Rock of the cancellation of any scheduled shipment due to weather or job site conditions. Failure to so notify Reading Rock will result in delivery of material to the nearest accessible location on the job site or, at the request of the customer, the shipment shall be returned to a Reading Rock facility and the customer shall be assessed a \$150.00 dry run charge. Orders must be cancelled by speaking personally to a customer service representative. Messages left on voice mail after the switchboard closes (4:30 p.m. during the week and on weekends) will not be honored. **In any case, the customer will be charged a handling fee if a load is held, cancelled, or changed once the truck has been loaded.** Such fee shall be determined by Reading Rock's Distribution Manager. Deliveries outside of the local region cannot be returned. Delays in unloading or the transfer of the material to another site will be subject to additional charges. Unloading of deliveries is the responsibility of the contractor unless agreed to in writing prior to the delivery.
9. A maximum of 30 minutes unloading time after arrival at the job is provided by Reading Rock. Extra time for special unloading requirements, waiting on the job, moving materials or other services performed will be billed at the hourly rate in accordance with the current rate schedule.
10. Materials will be positioned as close to the project as reasonably possible at the time of delivery if the "delivery beyond curb" charge has been paid.
11. For the purpose of safety, drivers are not allowed to place material on scaffolding or floors, into an excavated area they cannot clearly see, over fences, walls, wire, or any other areas they determine to be unsafe.

SCHEDULING

1. Deliveries are scheduled only **AFTER** an order has been placed and released to dispatch. We do not hold or reserve trucks for future orders.
2. Cash sale deliveries will be scheduled only **after full payment in advance** has been received. Drivers do not collect any method of payment.
3. Any changes to an original order may delay shipment of that order. No changes to an order can be made once the release has been dispatched to the driver for loading without incurring a handling charge.
4. Reading Rock will attempt to accommodate specific requests for equipment but specific equipment cannot be guaranteed. Please note that such requests may cause delays in the scheduling of the delivery.
5. "Day One" for determining delivery standards, begins at 7:30 a.m. and ends at 4:00 p.m. Subject to the provisions of 9. below, orders received after 4:00 p.m. are considered next day's business.

6. All deliveries are scheduled to arrive at the job site as early as 6:00 a.m. and as late as 7:00 p.m. Monday through Friday. There are no scheduled Saturday or Sunday deliveries.
7. Any special requirements and/or directions should be discussed at the time the order is placed.
8. For local deliveries, full load releases will be scheduled in the morning. Partial and retail deliveries will most likely be scheduled in the afternoon or combined with other partials and may be delivered in the morning at the discretion of the dispatcher. Expedited delivery is offered when available, in accordance with the current rate schedule.
9. Commercial account customers will receive next day delivery in Zone 1 when the order is placed with customer service by 3:30 p.m. pending available trucks. All other non-Cincinnati Zone 1 deliveries will be shipped according to truck availability. Non-Cincinnati Zone 1 Hardscape orders must be placed by 12:00 noon if next day delivery is needed (pending truck availability). A customer requesting a change to an order that is already staged or loaded for delivery will incur a handling fee determined by the Distribution Manager. All Non-Zone 1 deliveries should be placed at least four days before the material is needed. Reading Rock is not responsible for the acts of contracted outside carriers and delivery times are approximate and cannot be guaranteed. While most loads are delivered within two business days after leaving the manufacturing facility, early planning and utilizing job site storage is recommended.
10. Requests for material and/or pallet "pick ups" will be scheduled in 5 days or less, weather permitting. "Expedited" pick up requests will be charged at the current rate.

DELIVERY

Due to the many variables associated with deliveries, all delivery dates and times stated by Reading Rock are **approximate** dates and times only and estimated in good faith to the best of Reading Rock's ability. Time shall not be deemed to be of the essence in making delivery under an order unless specifically agreed to in writing by Reading Rock. Reading Rock shall not be liable for any failure to perform or for any delay in the delivery or shipment of products, or for any damages or costs of any kind or nature suffered by customer due to such failure or delay, when it is directly or indirectly caused by acts of God, acts of customer, war, riots, fires, explosions, floods, strikes, lockouts, injunctions, accidents, weather, traffic, government interference, failure in production or production equipment, inability to obtain adequate fuel or power, shortage of raw materials, common carriers available for hire, labor or storage facilities, independent acts of any common carrier, (including Ryder Logistics) or any other cause or causes beyond the reasonable control of Reading Rock.

RETURNS/SPECIAL ORDER POLICY

Due to natural variations inherent in our products, it is essential that you look at more than one piece to see the range of color, shading, and texture. Selections should be made from a representative sampling, and when possible, from an existing project. Once products are installed, we can no longer be responsible for selection. Before ordering, quantities should be checked against job site conditions. Factors out of our control that do affect materials required are: job conditions, weather conditions, workmanship, plan changes, job site theft, and job site supervision.

We, therefore, cannot guarantee any takeoffs due to the extreme number of variables outside of our control.

THE FOLLOWING ARE **NOT** RETURNABLE FOR CREDIT:

1. All bag goods including mortar, cement, and sand
2. Special order/non-stock items
3. Chemicals, powders, cleaners, and sealers
4. All sale items, seconds, and overrun materials
5. Cut to length geogrid and filter fabric
6. **RESTACKED**, muddy, or damaged cubes of products.
7. **LESS THAN FULL CUBES** of paver products.
8. Items out of their original packaging as well as any material not on the Reading Rock stock list.
9. Unstenciled/unusable pallets; Europa, Nitterhouse and RockCast pallets.
10. Any material in unsellable condition as determined by yard/warehouse personnel
11. Cash sale material and pallet returns without an invoice copy

Due to the inherent nature of these products, Reading Rock utilizes a 5% allowance for "chipped" and/or cracked materials. "Chipped" materials in quantities above 5% of the order will be exchanged at no charge and no credit will be issued. Full credit will be issued for materials deemed to be defective due to manufacturing processes that are defective beyond the 5% allowance.

All returned items will be inspected before acceptance of the return. Due to multiple sizes typically used in most Europa, Courtyard, and Recon walls and the additional sorting labor necessary, all undamaged Europa, Courtyard, and Recon items will be restocked at a 30% (\$30.00 minimum) re-stocking charge.

All other stock block, hardscape, and resale will be accepted with a 20% (\$20.00 minimum) re-stocking charge. A receipt dated within 60 days from purchase must accompany returns. A receipt dated within 30 days of last delivery must

accompany returns for large commercial projects. Any cash refund over \$50.00 will be issued in the form of a check and mailed to the customer. For all account customers, any credit derived from the returning of material or pallets will be credited to the account unless approved by a Reading Rock manager.

RockCast manufactures custom cast stone to ASTM 1364 and architectural machine made units to ASTM C90. Due to the nature of these specifications along with specific installation requirements, allowances for waste and rejection are based on each of those ASTM specifications. For specific tolerances and waste, please reference those specifications and the RockCast product information at Reading Rock's website www.readingrock.com. Returns of any RockCast product will not be accepted without prior written consent of the Company.

A HANDLING AND DISPOSAL FEE WILL BE CHARGED ON ALL NONSTOCK, UNSELLABLE AND REFUSE MATERIALS RETURNED. COST TO BE DETERMINED BY THE DISTRIBUTION MANAGER.

Material/Pallet Pick Up Qualifications

1. Drivers will only pick up stenciled Reading Rock pallets.
2. A prior request for material/pallet pick up must include the number of pallets or cubes to be picked up so that Reading Rock may have available space on the truck. If all the pallets/material requested for pick up do not fit on the truck, Reading Rock will return to pick up the balance at no charge to the customer.
3. If requested by the customer, Reading Rock drivers will pick up for return any pallets or materials (according to the Return/Special Order Policy) while they are making a scheduled delivery to the same job site, at no charge, with the following stipulations:

No credit will be issued and the material will not be stored for future pick up or delivery. In addition, the customer will be charged for hauling, yard time, and disposal of all materials in such amounts as determined by Reading Rock's Distribution Manager.
6. If a representative of the customer is not on site, all materials and/or pallets to be picked up by Reading Rock equipment are to be readily marked, stacked, and segregated from materials that are to remain on the job site. Reading Rock will not be responsible for mistakenly picking up still needed materials otherwise.
7. Due to job site conditions, and weather conditions, Reading Rock cannot be responsible for breakage while trying to pick up materials requested by the customer. The driver will not clean up and no credit will be given. Any truck charges will apply.

This warranty does not cover damage resulting from improper installation, abuse, accidents, Acts of God, erosion from water, fire, normal wear and tear, fire, unauthorized modifications, misuse, or failure to properly maintain. This warranty is limited to the products’ original purchaser and proof of purchase is required. This warranty is not transferable.

Defective or otherwise non-conforming manufactured products shall be removed and returned to Reading Rock, at the customer’s sole cost and expense, where they will be tested by a certified materials laboratory in accordance to applicable ASTM standards. Reading Rock, in its sole and absolute discretion, may provide customer with an alternate color and/or shape available from its current product line at the time a warranty claim is accepted.

Due to the nature of the product and the manufacturing process, “efflorescence” may be present and does not constitute defective product. Industry acceptable products are available to assist in the cleaning and removal of efflorescence. The use of concrete setting practices and the building’s detailing may also increase the possible occurrence of efflorescence. Because this is a natural occurrence, Reading Rock accepts no responsibility for this condition.
