JOIN US ON MARCH 13 & 14, 2012

Don't miss Reading Rock's PaverLock® Paving Stones Level I Contractor Certification on Tuesday, March 13 and Allan Block® Level I Contractor Certification on Wednesday, March 14. The paver course will offer a basic understanding of interlocking pavers, how they are installed, and why PaverLock is a premium product. It will also explore the benefits of using sealers and joint stabilization sand as a way to protect the investment your customer has made, help eliminate call backs and best of all, maximize your profits! The wall class will introduce you to Allan Block products and the advantages of segmental walls. In addition, the Allan Block Level I course will also explore principals of wall design, how segmental retaining wall products work, reasons why walls fail as well as teach proper construction methods.

Who Should Attend

Both courses are tailored for an installer, foreman or crew; however, the courses are also useful for building officials and architects interested in learning more about PaverLock paving stones and/or Allan Block segmental walls.

Paver Topics
