DESCRIPTION: GATOR EDGE RIGID & FLEX are made with 100% Polypropylene Co-Polymer. This will give it great strength as well as provide great flexibility. We have a RIGID model which is ideal for straight applications and the FLEX model that can be used for all curved applications such as walkways, paths, entrances etc. Both the RIGID and FLEX can be locked together with the “Twist & Lock” system. Finally the RIGID could be transform in a partial FLEX by cutting the bridge support between each triangular angles.

FEATURES: • The FLEX can connect to the RIGID.
• Use a “Twist & Lock” connection system.
• Will not corrode.
• Easy-to-use.
• Available in flexible or rigid edges.
• Xtra versatile.
• Xtra robust system.
• Xtra support strength.
• UV resistant.
• Comes in 8-ft lengths.
• Use with Gator Nails.

FOR USE ON: GATOR EDGE is an excellent choice to help define alleys, driveways or sidewalks. GATOR EDGE is designed for straight or curved installation. It is especially easy to use and quick to install.

INSTALLATION INSTRUCTIONS:
1. It should be installed before the paver installation.
2. Use one 10” nail every foot or 3rd hole for great support strength. Make sure edges are installed on a compacted structural aggregate base.
3. Use the “Twist & Lock” feature to secure the edging lengths together.
4. Nail at every “Twist & Lock” junction, this will ensure continuous lateral support.

NOTE: Both RIGID and FLEX units can be joined together.
