The flagship 6000/8000 series from Heat & Glo® is designed with your lifestyle in mind. Four models and two sizes provide flexibility to upgrade with enhanced features.

Start with the C model for moderate heat and vibrant flames. Move to the CL for upgraded LED accent lighting, choice of brick interior or reflective black glass and an IntelliFire™ Touch wireless remote control for simple and intuitive operation. Select the CLX for the ultimate fireside experience with bold, vibrant flames, high definition logs, LED-illuminated ember bed and virtually invisible anti-reflective ceramic glass. Or go Modern with a clean front, ebony glass media and a reflective fluted black glass interior.

YOUR FIRE. YOUR WAY.

- **GRAPHITE**

**6000 & 8000 TECHNOLOGIES**

**INTELLIFIRE TOUCH IGNITION SYSTEM**

- IntelliFire Touch is the most advanced and intuitive InntellFire system, making opening your fireplace simple, smart and safe. Select the wireless wall switch or touchscreen remote control for the solution that fits your life.

**DIRECT VENT TECHNOLOGY**

- Direct Vent fireplaces remove 100% of combustion exhaust and odors outside of the home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality.

**HEAT MANAGEMENT SOLUTIONS**

- Bring the warmth from your fireplace to the rest of your home, up to 20 feet away. Heat management technology can redirect up to 50% of the heat outside of the home. Select the Heat Out or Heat Management kit to transfer heat where you want it, or utilizing your existing furnace ductwork with a Heat Duct kit.

**POWER VENT TECHNOLOGY**

- Power management accessory with slim turning radius that circumnavigates your home—up, down, over, under—making it possible to install a gas fireplace virtually anywhere. A cleaner, more distinct view of the fire. A glare reduction of 89% over standard ceramic glass, making it virtually invisible. And an experience so real, friends may just try and add a log to the fire.

**ANTI-REFLECTIVE GLASS**

A cleaner, more distinct view of the fire. A glare reduction of 89% over standard ceramic glass, making it virtually invisible. And an experience so real, friends may just try and add a log to the fire.

**LED ACCENT LIGHTING**

- Superior performance and extended efficiency. This technology provides high-contrast, brilliant lighting to accentuate the flames. Can be used as mood lighting, with or without the flames.

**LED EMBER RED**

- Red thermal LED ember features a glowing amber. Red LED ember kit for the finishes that are available on your fireplace.

**FADE-RESISTANT BLACK GLASS AND FLUTED GLASS PANELS**

- A clean modern look never goes dull. Just like these black glass interiors. Their blackness is real, friends may just try and add a log to the fire.

**HIGH DEFINITION LOGS**

- For the most authentic appearance and highest level of detail, opt for the CLX model with high definition logs. Superior performance and extended efficiency. This technology provides high-contrast, brilliant lighting to accentuate the flames. Can be used as mood lighting, with or without the flames.

**ANTI-REFLECTIVE GLASS**

- A cleaner, more distinct view of the fire. A glare reduction of 89% over standard ceramic glass, making it virtually invisible. And an experience so real, friends may just try and add a log to the fire.

**SELECT A MANTEL SYSTEM**

- Comfort your fireside with style. A variety of mantel systems can transform your space. Select from a range of styles. Your interiors can be made even more dramatic with additional information on mantel systems, shelves and stone surrounds.

**MOTORIZED MANTLE SYSTEM**

- Motorized mantle systems can transform your space. Select from a range of styles. Your interiors can be made even more dramatic with additional information on mantel systems, shelves and stone surrounds.
